Power-PRO™ 2 powered ambulance cot

Respond safely

■ SEM saves time

Automatically track cot health and remotely manage your fleet through one convenient, interactive dashboard

■ Control and flexibility

Move through tighter spaces and get better leverage when loading into taller ambulances with extending/retracting foot and head end sections

■ Peace of mind

Track battery status with a smarter, long-lasting lithium-ion battery

■ Moving made easy

Navigate at a lower, safer height using the integrated foot end transport handle during patient transport

■ See and be seen

Create a clear view of your environment with bright lights and reflectors

■ More benefits, less weight

Strain less during long shifts with an 8.4 percent lighter cot*

■ Bumper detection

Help reduce the risk of medic and patient injury when unloading manually with new bumper-detecting hydraulics

■ Trusted transport

Increase patient transfer safety with easier access to integrated steer or lock wheel casters from either end of the cot

*Compared with a high-configuration Power-PRO XT.
